# Powerfully Built. Dependably Strong.

Powerfully built for the toughest mess.  
Dependably strong for all pools. Dolphin  
gives you more time for family fun.

**M** Series

## ULTIMATE CLEANING TECHNOLOGY

There's a reason why Dolphin is the #1 selling robotic pool cleaner. Unlike competitor cleaners that use random patterns to clean the pool floor, Dolphins use CleverClean Smart Navigation to ensure complete pool coverage.

## SUSTAINABLY DESIGNED. ENERGY EFFICIENT.

The Dolphin M Series consumes an average of 5 cents of energy per hour and is 8 times more energy efficient than suction and pressure cleaners.

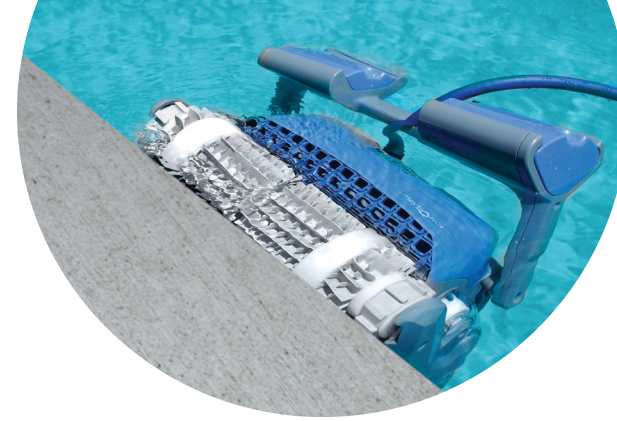

## BEST-IN-CLASS WARRANTY

The Dolphin M 500 comes with a 3 year full warranty covering parts and labor. The best protection of any robotic pool cleaner on the market.

## MyDolphin App

Use Bluetooth to remote control your Dolphin with the **MyDolphin App**. You can also program weekly cleaning cycles.

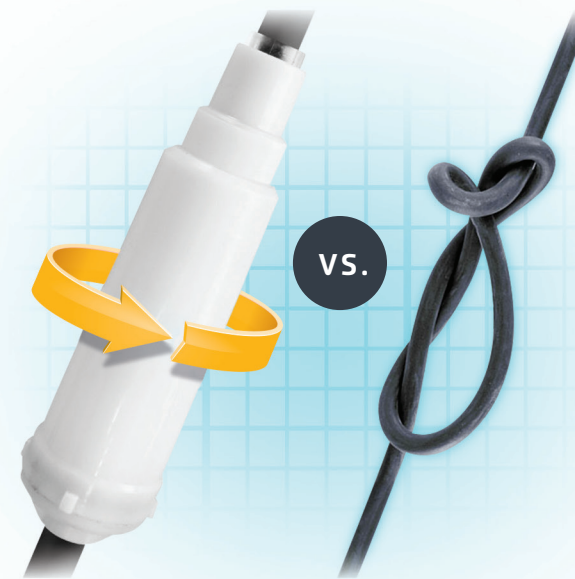

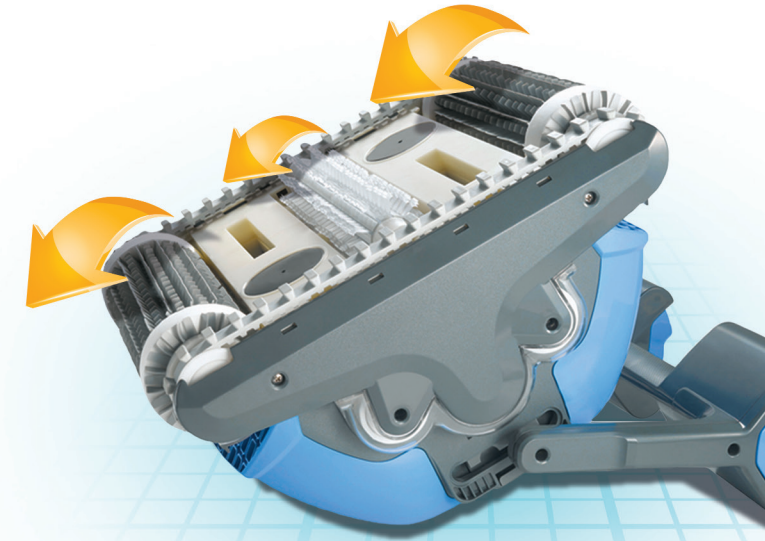

## Cleans Walls and Waterlines

Durable tracks and dual scrubbing brushes create the friction needed to remove leaves, dirt and debris on the floor, walls and waterline - leaving your pool sparkling clean.

## Built for the Toughest Pools

This Dolphin won't get stuck. A dual drive motor provides the extra horsepower behind the dual scrubbing brushes, and a 3rd active brush, which helps power through debris and obstacles like hard to navigate drains.

## No More Tangling

Tired of lots of hoses and cables? Dolphins are "plug and play" and include the patented Dolphin Swivel technology that gets rid of tangling and ensures complete pool coverage.

## Top Load Cartridge Filtration

Dolphin makes everything easy. Our dual fine and ultra-fine filters are ideal for collecting leaves, dirt and debris. Once your pool is clean, our top load filters make clean-up quick and easy. Just remove, open and rinse clean.
